

LAUNDRY WITH A VIEW

The Laundry Facilities

Our laundry room is located on the 17th floor of the Staff Residence Building, and has a great view of the East River and the Brooklyn Bridge.

The laundry room is open from 7:00 am to 11:00 pm 7 days a week. There are 6 washers (4 regular, 2 large) and 6 large dryers. To operate the laundry machines you must use a smart card (only one card will be issued) which you can obtain from the building engineers office. If you should loose your smart card you can purchase one from the smart card vending machine in the laundry for a \$4 fee. The smaller washers are \$2.10 per load, and the large washers are \$2.60 per load. The dryers are 55 cents for 10 min.

If you should have a problem with any of the washers or dryers, call the building engineer's office. Use the in-house phone located in the corridor next to the conference room door. Please call x5728 and leave a message about the problem you are having. When reporting your problem, please tell us which machine (dryer or washer) and the machine number. Refunds are obtained from the washing machine company by calling the number on the machine.

The laundry room is under 24 hour electronic surveillance
